

Intelligent Rack PDUs¹ and Power IQ[®] DCIM Software

Data Sheet

Get Up and Running Fast with Our QuickStart Configuration Service

Save power, reduce downtime, and provide better service delivery in as little two days.² Let the data center experts help you get started.

iPDUs and Power IQ QuickStart Configuration Service Deliverables

1. Successful deployment of Power IQ for one data center with configuration for up to 50 iPDUs and up to 300 IT devices.³
2. Full integration of iPDUs and Power IQ, including database population and SNMP configuration for data collection.
3. Up to five dashboards that include two charts (e.g., PUE gauge, health map, cooling chart, capacity forecast) each.
4. Training on import spreadsheet setup, configuration, and reporting.
5. Identification of next steps, including dynamic plugins and alert notification, to ensure ongoing success.

Ordering Information

Part Number: SB-SVC-PWIQ-QS⁴ One-Day Power IQ QuickStart Service.

Optional Add-On Services

- Full administrator and end-user training.
- Custom reporting.
- Configuration for facility objects, including CRACs, floor PDUs, RPPs, and UPSs.
- Proposals for future expansion and additional configuration options.

This service is for configuration only.

¹Applicable to any "intelligent rack PDU" that has "built-in" support within Power IQ and is already configured on the client network.

²Prerequisites include physical rack mounting, network cabling, powering the rack, IP assignment, Excel import file ready for upload, and installation of Power IQ prior to on-site service delivery.

³Additional services available for multiple data centers and over 50 PDUs.

⁴This SKU is specifically for configuration and integration of up to 50 PDUs.

Sunbird Software is changing the way data centers are being managed. With a focus on real user scenarios for real customer problems, we help data center operators manage tasks and processes faster and more efficiently than ever before, while saving costs and improving availability. We strive to eliminate the complexity they have been forced to accept from point tools and home grown applications, removing the dependency on emails and spreadsheets to transform the delivery of data center services. Sunbird delivers on this commitment with unexpected simplicity through products that are easy to find, buy, deploy, use, and maintain. Our solutions are rooted in our deep connections with our customers who share best practices and participate in our user groups and product development process.

Based in Somerset, NJ, Sunbird serves nearly 1,000 DCIM customers worldwide. For more information, please visit SunbirdDCIM.com.
